*The main highlights of HES actions during 2019, are the completion and presentation of the Position Paper for the development of a National Evaluation Strategy and the organization of the 3rd HES Annual Conference on the theme "Evaluation and Governance". HES also announced the awards of the annual competition "Good Practices in Evaluation". Monthly meetings continued, during which participants had the opportunity to exchange views on topics of interest to the community of evaluators.*

*Our strategy for the year 2020 focuses on further promoting public debate on evaluation, through the organization of the 4th HES Annual Conference in October 2020 and other information and awareness raising activities, as well as the intensification of training activities. The publication of the bi-annual magazine "Hellenic Evaluation Society Review" will continue, with the publication of the 4th and 5th issues, expanding topics of actual interest for the evaluators as well as for a wider audience of readers interested in the evaluation methods and findings.*

*Concluding this note, I would like to thank the members of the Board of HES, the members of the working groups and the members and friends of HES, for their time and knowledge dedicated in carrying out these activities. In 2020 we will continue putting all necessary effort in fulfilling the objectives of HES and strengthening evaluation at all levels of decision-making.*
